新麦机械（中国）有限公司

SINMAG EQUIPMENT (CHINA) CO., LTD

NO.312 YOUYI RD, XISHAN ECONOMIC DEVELOPMENT ZONE,WUXI CITY, JIANGSU PROVINCE, CHINA

INSTRUCTION

We hereby want to give the suggestion how to prevent the blade of SM530 become rust.

The material of blade for Sinmag SM530 is made of iron.

During your daily operation,please do not use water to clean the blade directly.

You can use wet cloth or dry cloth to clean the blade.

For the oil to be used on the surface of blade,please use food grade of mineral oil for lubrication.
